## Fears Navy Militia Forgotten.

Women of Washington who "take  
great pride in treating the District of  
Columbia Guard" are asked to be re-  
minded by The Star from a "Navy  
Volunteer" on the U. S. S.  
New Hampshire, care of postmaster,  
New York. "If they have forgotten the  
District of Columbia militia of the  
navy, who left old District of Columbia  
Easter Monday if they haven't for-  
gotten us let them show it."

Recruits for the British army and  
navy to the number of 250 were secur-  
ed yesterday on the first day of the  
opening of the British recruiting mis-  
sion in New York city. Only British  
subjects are taken into service in their  
own colors. It was the first time in  
the history of the United States that  
a foreign government had recruited  
men in this country for its own mili-  
tary service. From the time the office  
was opened, it is stated, until they  
closed the doors last night the office  
was thronged with loyal Britons who  
were eager to serve.

The British recruits came from all  
walks of life. There were a few ed-  
itors among them, a number of actors  
and a great many butlers and valets  
employed by wealthy American fam-  
ilies.

## FLAG OF OUR LAND.

By Erwin F. Smith:

Flag of our land, flag that it stirs us to see!  
Crimson her bars in the sun's white light.

And silver her stars on the blue of night;  
Glory, Old Glory, symbol of freedom and might.  
Our past, today, and the mighty realm to be.  
Whither thou leadest we go, flag of the free!

Banner beloved, flag of our land!

Sunlight and starlight twain are her friends.  
The God of all righteousness energy lends  
To the ranks of the free when they make their stand.  
And the years take counsel with her for their ends;  
Whither thou leadest we follow, flag of command!

Let Caesars beware of this flag of the free!

Now 'tis raised, 'twill be found in the van of the fight  
For end of all kings and the coming of right;  
Let her folds be flung to the air and the light  
For the rescue of men and the freedom to be.  
Glory, Old Glory, O draw us to thee!

MEDICAL ASSOCIATION  
MEETING IN SECTIONS

Various Branches Discuss the Papers  
Read at Annual Convention  
in New York.

By the Associated Press.  
NEW YORK, June 7.—Meetings of  
the various branches of the discussion  
papers were held today by the dele-  
gates attending the annual convention  
here of the American Medical Associa-  
tion. Of special interest were the  
read before the section on preventive  
medicine and public health on "Some  
Aspects of the Public Health in China,"  
by Dr. W. W. Peters of Shanghai, China,  
and by Dr. R. W. Corwin of Pueblo,  
Col., dealing with medical and surgical  
preparations in times of peace and its  
advantages to the nation.

Dr. Arthur Dean Bevan of Chicago  
presented a paper before the section on  
surgery on "The Problem of Unneces-  
sary Operations and Incompetent Sur-  
geons," after which the section adopted  
a motion calling for the appointment  
of a committee of ten to study the sub-  
ject and to report next year.

Dr. Bevan declared that many opera-  
tions were performed which are wholly  
unnecessary, and there are not a few  
surgeons operating who are not qual-  
ified for their work. Dr. Bevan said it  
should be frankly admitted that such a  
problem exists and that its elimination  
could be achieved only through educa-  
tion, criticism and publicity.

## Urges Service to Nation.

Dr. Franklin H. Martin, chairman of  
the medical section of the council of na-  
tional defense, in an address last night  
urged his junior colleagues of the pro-  
fession for their failure in responding to  
the country's call for medical men to take  
care of the armies now forming.

Dr. Martin said that at the first recep-  
tion informally at the White House of the  
British war commission the visitors' first  
request was that America should send a  
thousand doctors to help England at the  
front.

More than 25,000 physicians and sur-  
geons are needed for European service,  
said Dr. Martin. Only three thousand  
men have enlisted thus far in the Medical  
Officers' Reserve Corps, he declared.  
There are nine thousand young doctors in  
the country between the ages of twenty-  
one and thirty-one, he said, and they are  
able to conscientious objectors and vol-  
unteer their services. He warned these men  
that if they do not enroll in the reserve  
corps they may find themselves digging  
trenches within six months.

## TAKES UP DUTIES HERE.

Rev. Mr. Carruthers Assistant Pas-  
tor of Church of the Covenant.

Rev. John F. B. Carruthers of Harris-  
burg, Pa., Monday began work as as-  
sistant pastor of the Church of the Cove-  
nant. Mr. Carruthers was graduated from  
Princeton Theological Seminary May 8  
and was licensed to preach at a meeting  
of the Presbytery of Carlisle shortly  
thereafter.

Mr. Carruthers was a graduate of the  
Central High School of Harrisburg in  
1907, and won two important oratorical  
contests. He was graduated from Prince-  
ton University in 1912 "cum laude," was  
twice junior orator and class orator, and  
prize man, and was a member of the  
Triangle Club and Glee Club. He is to  
receive his degree of master of arts from  
Princeton this month.

In the seminary class Mr. Carruthers  
was a tie for first place in a class of  
fifty-three and was secretary of his class.  
At the seminary commencement he was  
awarded the Archibald Alexander and  
alumni fellowship in New Testament  
study, entitling the holder to a year's  
study abroad, and first place in the  
Scribner prize.

## Certificate Loan Oversubscribed.

The government's latest offering of  
\$200,000,000 in Treasury certificates of  
indebtedness has been oversubscribed.  
The books were closed yesterday, two  
days ahead of the designated time.  
The entire offering was placed  
through the federal reserve banks, and  
brings the total amount of outstanding  
certificates up to \$870,000,000. Bearing  
a lower rate of interest than the liberty  
bonds, they are convertible into  
bonds.

LINER IS MOTHER SHIP  
FOR AIRPLANE FLEET

Now Being Used by British Admiral-  
ty in New Campaign Against  
U-Boats.

Special Dispatch to The Star.  
NEW YORK, June 7.—Passengers  
who have recently arrived at an Amer-  
ican port from England stated that a  
former transatlantic liner of consid-  
erable size, which was converted into  
a mother ship for airplanes and took

part in the North sea fight, was now  
being used by the British admiralty in  
its new campaign to overcome the  
German submarine menace.

This vessel carries a number of air-  
planes and cruises round the British  
coast, waiting to pick up news of the  
undersea craft. Men are posted at the  
lookout posts, on the lookouts, with  
powerful glasses, and directly a sub-  
marine is sighted an aviator goes up  
in a seaplane and drops bombs on its  
track.

No figures had been given out by the  
admiralty as to the number of sub-  
marines sunk, but one passenger was  
told at Chatham that the toll averaged  
twenty-five a month, which was, it was  
said, ten more than the Germans could  
manufacture and place in the water  
during that period.

## British Bomb Grain Fields.

BERLIN, June 6, via London, June 7.  
—In its report today on operations  
along the Macedonian front, army head-  
quarters announces that British air-  
men dropped incendiary bombs on ripening  
grain fields on the east bank of the  
Struma.

The German report recalls a recent  
suggestion by Lord Calthorpe, a former  
member of the British army, who has  
given much attention to the food ques-  
tion, that German crops might be de-  
stroyed through setting them afire  
with fire balls dropped from entente  
airplanes. The plans of Hungary  
were also mentioned as affording a  
field for such operations.

Own Good Name"

G. Washington

In Washington's Inaugural Message  
he promised to sustain "The Will of  
the People and My Own Good Name."

And so it is in the world of business. Com-  
mercial honor can successfully be built only on  
the standard of quality and personal good faith.  
By the "will of the people" and by answering all  
their demands for Most Miles per Dollar, Mr. Firestone  
has built an organization which stands for leadership.

## Firestone

Tires fulfill every demand of safety, easy riding and econ-  
omy. And as assurance that this quality shall continue,  
you have the pledge of the Firestone name.

And this pledge is carried out by an organization of which  
11,000 employees are partners in business. Equip today.
